### STR 1750-A

#### 460V/3Ph/60Hz - 1750 scfm refrigerated air dryer

nano R<sup>3</sup> open-frame refrigerated process air dryers are designed for reliability, performance and low cost of ownership. They feature a dual-action heat exchanger constructed of a carbon steel shell and copper tube/aluminum finned coil for increased surface area and lower pressure dew points. nano utilizes environmentally-friendly R404a refrigerant, a TXV for precise control and a simple yet powerful electronic controller. The R<sup>3</sup> offers peace of mind that downstream equipment will be protected from damaging moisture contamination.

general characteristics		
rated capacity (scfm)*	1750	
absorbed power (kW)	13.9	
full load amps (A)	17.8	
pressure drop (psid)	2.8	
operating limits		
design operating pressure range (psig)	0 - 150	
maximum refrigerant working pressure (psig)	401.7	
design/maximum ambient temperature (°F)	100 / 110	
design/maximum inlet temperature (°F)	100 / 120	
electrical		
power supply (V/Ph/Hz)	460/3/60	
control panel enclosure	NEMA 1	
refrigerant gas/circuit		
refrigerant type	R404a	
refrigerant charge per circuit (lbs)	30	
compressors		
compressor type	scroll	
compressor quantity	1	
compressor (hp)	10	
independent gas circuit	1	
fans		
fan type	axial	
fan quantity	2	
condenser cooling type	air-cooled	
air circuit		
air circuit connections (150# ANSI Flg)	4"	
ISO class		
ISO air quality class (water content)	class 4	

\*rated flow capacity: in compliance with ADF 100 specifications for compressed air dryers: inlet temperature: 100°F; ambient temperature: 100°F; inlet pressure: 100 psig; pressure dew point: 33°F to 39°F. For all other conditions, contact support@npsi.com

#### features

- shell and finned tube heat exchanger
- low pressure drop
- environmentally friendly R404a refrigerant
- power on light
- on/off switch
- high suction temperature light
- compressor motor thermal overload protection
- crankcase heater
- high/low refrigerant pressure control
- low ambient fan controls

- air inlet temperature gauge
- refrigerant analyzer gauge (suction pressure)
- outlet air pressure gauge
- compressor run lights
- zero air loss drains
