nano

nano N$_2$: On-Site Gas Generators

GEN$_2$ i4.0-1110

100-240 VAC/50 or 60 Hz - Nitrogen Generator

The nano GEN$_2$ i4.0 nitrogen generator is designed to deliver nitrogen gas at a specified purity, flow and pressure as required by the application. The nano GEN$_2$ i4.0 operates on the pressure swing adsorption principle, which allows for a continuous supply of nitrogen from clean dry compressed air. The nano GEN$_2$ i4.0 generator offers a cost-effective, reliable and safe alternative to the use of liquid or bottled nitrogen.
GENERAL CHARACTERISTICS	
Rated capacity (scfh) @ 95% / 99.5% / 99.999% [1]	364 / 184 / 32
Absorbed power (watts)	72
Power supply (VAC/Hz)	100 to 240 /50 or 60
OPERATING LIMITS	
Design operating pressure range (psig) [2]	87 to 174
Design operating temperature range (°F)	41 to 122
Recommended operating temperature range (°F)	41 to 86
MEDIA CHAMBERS	
Material of construction	aluminum
Media type (CMS)	carbon molecular sieve
CONTROLS/ DESIGN	
Generator design (PSA)	pressure swing adsorption
Controller type (PLC)	programmable logic controller
Interface type (HMI)	touchscreen
Electrical rating	IP 31 / NEMA 2
CONNECTIONS	
Compressed air inlet (NPT)	1"
Nitrogen outlet to buffer vessel (NPT)	1"
Nitrogen return form buffer vessel (NPT)	½"
Nitrogen outlet (NPT)	½"

(1) 100 psig inlet pressure
(2) 174 psig maximum pressure standard with 232 psig options avaliable in the USA.

Dimensions & Weight

DIMENSIONS AND WEIGHT	
A (ins)	48
B (ins)	16
C (ins)	24
Weight (lbs)	348

GEN$_2$ i4.0: Nitrogen Generators

Features

- Reliable high performance piston valves

- Advanced PLC controller & touchscreen interface

- 174 psig maximum pressure standard with 232 psig option avaliable in the USA

- Integrated zirconia oxygen analyzer - 5 year life

- ecomode energy saving control as standard

- 2 year warranty.

- Pressure equalization at column switchover increases outlet flow.

- Multi-bank design enables units to be added as needed.

- Mass flow controller & pressure regulator deliver precise pressure and flow.

- Outlet purity valve guarantees nitrogen gas purity level to application.

Advanced PLC/ HMI features

- Large 5.7" touchscreen interface

- Displays inlet and outlet pressure in psig or barg

- Recorded data can be downloaded via SD memory card or USB device

- Low inlet & outlet pressure alarms

- Displays O$_2$ content with 4-20mA output signal as standard

- Select from multiple languages

- Optional purity dependent energy savings (PDES) saves compressed air.

- Service performed and alarms are logged and recorded.

- Multi-bank design enables units to be added as needed.

- Modbus TCP communications via RJ45 ethernet port
